Team Involvement in Demonstration

Date	25 June 2026
Team ID	XXXXXX
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	1 Mark

Team Involvement in Demonstration:

This document records the participation and responsibilities of all team members during the final project demonstration. It ensures that every member actively contributes to presenting the Emotion Detection & Learning Support Engine by explaining their assigned modules, implementation details, and project outcomes.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	Dinesh Karthik	Generative AI Developer	Project Introduction & System Overview	Contributed to project planning, AI workflow design, backend development, system integration, testing, and overall implementation support.	Active
2	Venu Gopal Devineni	Generative AI Developer	AI Integration & Prompt Engineering	Developed prompt engineering strategies, integrated Generative AI APIs, optimized AI responses, and supported backend implementation.	Active
3	Yenugudhati Mrudhu	Team Leader & Lead Generative AI Developer	Complete System Demonstration, Project Coordination & Future Enhancements	Led the overall project, assigned responsibilities, coordinated team activities, supervised development, reviewed implementation, managed testing, integrated major AI components, ensured timely completion, and presented the complete system architecture and future enhancements.	Active
4	Prabhas (AP24 110011525)	Generative AI Developer	Frontend & Emotion Detection Module	Developed the user interface, integrated emotion detection with AI responses, performed debugging, and demonstrated application features.	Active

5	Tanisha Kaza	Generative AI Developer	AI Model Integration, Documentation & Testing	Integrated Generative AI functionalities, contributed to emotion-aware response generation, supported backend logic, prepared documentation, performed functional testing, validated system outputs, and explained AI implementation during the final demonstration.	Active
---	--------------	-------------------------	---	--	--------

Team Coordination Notes:

Aspect	Details
Team Leader / Coordinator	Yenugudhati Mrudhu
Overall Team Coordination Rating	(5-5)
Any Issues During Demonstration	Synchronization Delay
Resolution	Quick Fix

Team Summary

The Emotion Detection & Learning Support Engine project was successfully completed through collaborative teamwork. Yenugudhati Mrudhu served as the Team Leader, coordinating project activities, assigning responsibilities, supervising implementation, and leading the final demonstration. Dinesh Karthik, Venu Gopal Devineni, Prabhas (AP24110011525), and Tanisha Kaza actively contributed as Generative AI Developers, participating in AI integration, backend development, frontend implementation, documentation, testing, and project validation. Every member actively participated in the final demonstration, ensuring a successful and well-coordinated presentation.
