

Initial Project Planning Template

Date	
Team ID	
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	5 Marks

Sprint	Epic	USN	User Story / Task	SP	Priority	Team Member	Start	End
Sprint-1	Problem Definition	USN-1	Identify the problem of lack of emotional support in online learning.	2	High	Dinesh Karthik		
Sprint-1	Problem Definition	USN-2	Gather requirements for an AI-powered emotion detection learning assistant.	2	High	Venu Gopal Devineni		
Sprint-1	Problem Definition	USN-3	Research existing emotion recognition and Generative AI solutions.	3	High	Yenugudhati Mrudhu		
Sprint-1	Problem Definition	USN-4	Analyze educational and social impact of emotion-aware learning.	2	Medium	Prabhas		
Sprint-2	Requirement Analysis	USN-5	Collect emotion datasets and student interaction samples.	2	High	Tanisha Kaza		
Sprint-2	Requirement Analysis	USN-6	Study NLP preprocessing techniques.	2	High	Dinesh Karthik		
Sprint-2	Requirement Analysis	USN-7	Analyze text datasets.	2	High	Venu Gopal Devineni		
Sprint-2	Requirement Analysis	USN-8	Perform preprocessing and tokenization.	2	Medium	Yenugudhati Mrudhu		
Sprint-2	Requirement Analysis	USN-9	Design emotion categories and labels.	2	Medium	Prabhas		
Sprint-2	Requirement Analysis	USN-10	Prepare training and testing datasets.	2	Medium	Tanisha Kaza		
Sprint-3	Emotion Detection	USN-11	Build preprocessing pipeline.	2	High	Dinesh Karthik		
Sprint-3	Emotion Detection	USN-12	Train emotion detection model.	3	High	Venu Gopal Devineni		
Sprint-3	Emotion Detection	USN-13	Improve prediction accuracy.	2	Medium	Yenugudhati Mrudhu		
Sprint-3	Emotion Detection	USN-14	Test model using student text samples.	2	High	Prabhas		
Sprint-4	Generative AI	USN-15	Integrate Groq API (Llama 3.1).	3	High	Tanisha Kaza		
Sprint-4	Generative AI	USN-16	Implement prompt engineering.	2	High	Dinesh Karthik		
Sprint-4	Generative AI	USN-17	Generate personalized learning responses.	3	High	Venu Gopal Devineni		
Sprint-4	Generative AI	USN-18	Test AI-generated recommendations.	2	High	Yenugudhati Mrudhu		
Sprint-5	Deployment	USN-19	Develop Streamlit interface.	3	High	Prabhas		
Sprint-5	Deployment	USN-20	Integrate backend with frontend.	3	High	Tanisha Kaza		
Sprint-5	Deployment	USN-21	Implement analytics dashboard.	2	Medium	Dinesh Karthik		
Sprint-5	Deployment	USN-22	Perform testing and bug fixing.	2	High	Venu Gopal Devineni		
Sprint-5	Deployment	USN-23	Deploy project and prepare final demonstration.	2	High	Yenugudhati Mrudhu
